Dear Mr. Kibble:

My son, his wife and their son is in Jonestown. I am concerned about their freedom.

Mail is presumed to be controlled and censored. I received an envelope addressed to me by my son, but it contained a letter to a mother in New Orleans. Obviously, after the mail was read in Jonestown Colony, it was put in the wrong envelope. What happened to the letter my son wrote me?

On April 21, 1978 in the evening, my son called. He stated that he had 10 minutes to catch the plane. That he was going to Rhonda and [redacted] his wife and son). My son [redacted] said "I am supposed to be gone two months" and that he was supposed to bring Rhonda and [redacted] back with him. Jim Jones got his wife and son (Rhonda and [redacted] to come to Jonestown in July, 1977. They were to be gone just two months.

All transportation from Jonestown, and the money is controlled by Jim Jones. From Jonestown to Georgetown, there is a 22 hour ride by boat or a small ship by river. Or, you can take a plane. The people are afraid to talk and tell the truth. They fear what will happen to them or their loved ones here in the U.S.A. Tell my son, [redacted] I am not afraid for my life. I am worried about my son and his family, and other people that are there being held against their will. They are afraid and unable to get help for themselves.

My son [redacted] weighed 240 lbs and is 6 ft. 2 inches tall. What is my son like now? I can't hear from him. I am sending a copy of a clipping from one of our newspapers here. This will give you some idea of what Jim Jones is.

These are American born. I am asking The American Embassy to please do an extensive investigation of Jonestown. I have sent letters and cards to my children but I haven't received any answers.

The mailing address is:

Any information I know I will tell to get freedom for the Blacks.

Jim had our American people over there thinking that their Social Security Checks were stopped when it wasn't true. All they could do was take his word. He did this so he could be looked up to as the almighty God with Love and Power, giving and helping. Actually, without Americans, Jim Jones has no power.

I look forward to hearing from the American Embassy. My phone number is [redacted]

Thank you very kindly,
